

How do I place an order?

We have a no “sales pressure tactics policy”, we do not even ask for your credit card number at checkout.

We want to communicate with you to ensure you are totally satisfied with your order.

As well, as mention earlier, the final cost will probably be less than the price that is advertised on the web site or at the checkout screen, so let’s talk and see if we can give you a better deal.

We carry thousands of different perfumes, nearly imposable to post all the different brands on the web site, as well, it would be overwhelming for the customers to search and view thousands of different perfumes, therefore, our experience showed us that the best approach is to post newly launched perfumes, most popular perfumes and a few selected exotic perfumes. If you are looking for a hard to find, imported product or recently discontinued product; contract us vie email or telephone and we will be glad to explore with you all your options.

If you see something you want on our web site, just click the item you want, click on “add to cart”, click on “view cart”; then simple click on “checkout” if the item and price is right.

A shipping screen will be presented asking for all the basic information such as ship address, email address and so on. Complete the information and click “continue”.

A delivery option screen will be presented showing you the cost of the shipping. If all is okay, click “continue”.

A payment screen will be presented, showing you your total cost, including taxes and shipping. It will also tell you more about your payment, but we will not ask for your credit card number now, just click on “pay offline” and you will shortly receive an email so we can communicate securely ---- that simple!!!!
